Cosmopolitan's
VALIA CHHANGANLAL LALJIBHAI COLLEGE OF COMMERCE AND VALIA LILAVANTIBEN CHHAGANLAL COLLEGE OF ARTS

Information and Communication Technology (ICT) enabled Tools

The college believes in blending the traditional modes of teaching with modern ones through the effective use of Information and Communication Technology (ICT) tools. Laptops and projectors are used regularly by faculty in the classroom. Faculties also share Power Point Presentations with students and extensively use video clipping available on the World Wide Web in the classroom.

Staff Room Projectors

Conference Room

Learning Management System (LMS) - Google Classrooms

Google classrooms were created per division and all content was uploaded there. Some of the PPTs had a voice over which was particularly useful to students in case they had missed class due to network issues. Video clippings which were earlier shown in class were now uploaded on their Google classroom. This helps to make teaching and learning more engaging as well as contemporary and relevant.

ICT in Library

Subscription to INFLIBNET'S N-LIST

The college has an exclusive section in the library where students can access online content for self- study. The use of ICT increased manifold during the pandemic.

### Screenshot of active membership of N-LIST

Use of Video Communication App: Zoom

College has purchased zoom subscriptions during the year for conducting online lectures. All lectures both regular as well expert and remedial were conducted online using zoom platform.

Few screen shots of Zoom
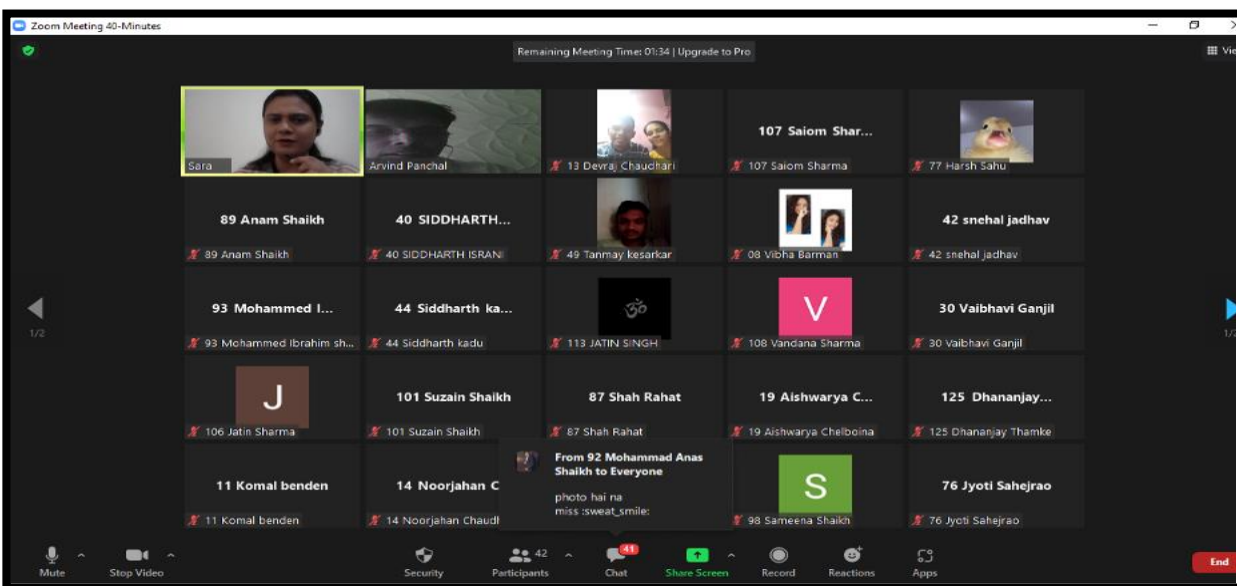

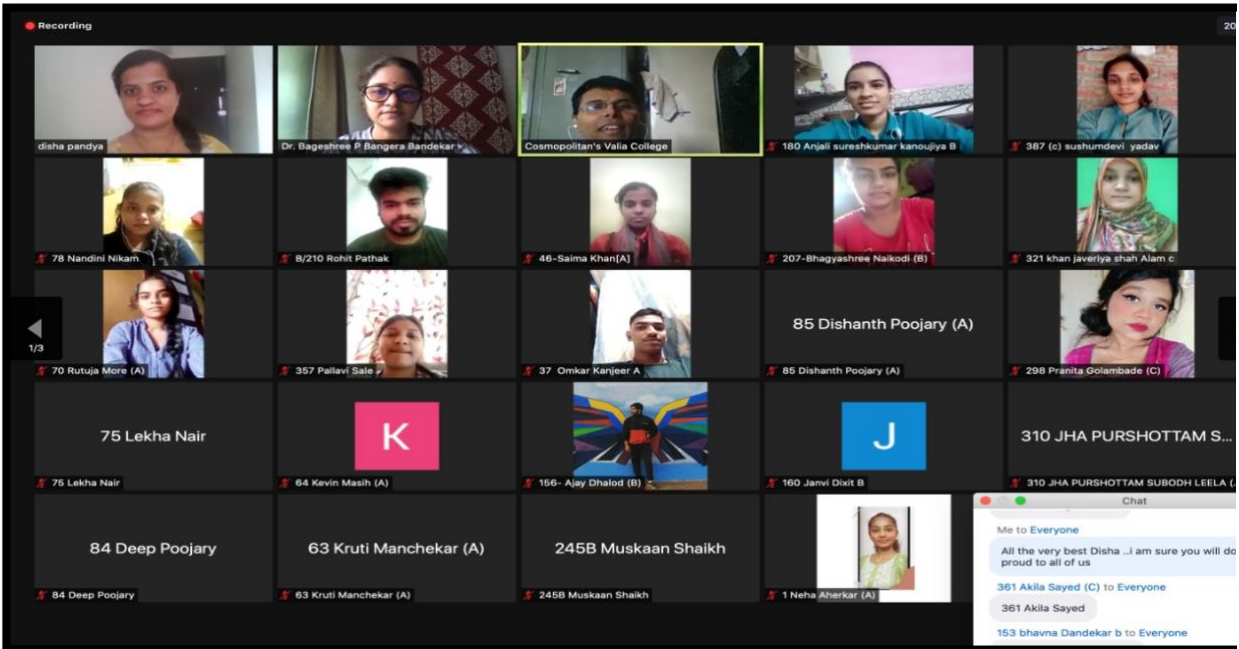

Use of multiplatform messaging app: WhatsApp

All students were added on to WhatsApp groups division wise and these groups were used to share lecture links as well as important notices.

## Online students' engagement and evaluation apps: Google Classroom and Kahoot

Taking the advantage of online mode, several teachers introduced subject related - Online Quizzes through Google classroom and Kahoot application. This helped them to ensure students participation and also evaluate students understanding in their specific subjects.

**Screenshots of quizzes on Google classroom:**
